## Fast & Intelligent cash deposit system by YOUGO

- U-Bundle** *is an innovative and advanced technology solution able to guarantee security and cash flow efficiency improving the cash management procedures of the stores*
- U-Bundle** *is equipped with YOUGO Bundle advanced technology providing maximum performance in banknotes processing, up to 5-6 notes per second*
- U-Bundle** *is a flexible product with a wide range of versions equipped with YOUGO “real stacking” or “free-fall” inside an heat-sealing tamper-evident bags system designed by Yougo with different bag capacity to offer a right solution for any customer requirements. The U-Bundle is the ideal solution to manage the weekly turnover with a medium-large volume of cash.*
- U-Bundle** *thanks to the innovative software platform Camaleonte by Yougo, allows the real time remote control of every transaction & event by browser.*

U-Bundle reduces the cost of retail cash management and back office administration, removes cash-counting responsibilities from your staff and saves time on manual counting and verification.

Employees use a touch screen to confirm their identification and to speed up the insertion of the bundle of banknotes; banknotes are processed securely and efficiently, reducing the risk of robbery, preventing shrinkage and eliminating cash differences.

**Using our software platform, retailer obtain monitoring in real-time, transaction transparency and reporting functions and gets also control over an entire network of note deposit units.**

**The Retailer can share the real-time access to cash levels with CIT partners, thus the retailer is able to optimize the route planning and the pick-up times for a more efficient service.**

**With Camaleonte platform is also possible to get Same-Day Credit: deposited amounts can be accredited to the bank account during the same working day for a better operating cash-flow.**
