

U-ONE

Intelligent deposit Cash-In system by YOUGO

- ONE of the Smallest Smart Safe on the market
- ONE by ONE high speed validation counting and deposit cash with a stacking system
- ONE touch cash handling from the customer to the bank

U-One is a smart safe designed to be positioned in a traditional retail either at the cash point (POS) or in a back office. U-One helps the cashier in the validation of banknotes, avoids mistakes during the counting and reduces / eliminates the need to interrupt trading to perform manual skims.

The banknotes are validated, counted, stored and stacked, with 100% accuracy, in a heat-sealed security tamper evident bag designed by YOUGO.

The innovative software platform Camaleonte by Yougo allows the real time remote control of every transaction & event, by standard browser.

With Camaleonte software platform is also possible to get Same-Day Credit: deposited amounts can be accredited to the bank account during the same working day for a better operating cash-flow.

U-One is divided into two parts, Top and Safe, the Top validates and counts the banknotes, that when they pass in the safe change ownership: only those authorized can open the safe and take the sealed bag.

U-One comes with different versions starting from U-One 600 store capacity up to 600* stacking notes, U-One 1200 store capacity up to 1200* stacking notes, U-One 2000 store capacity up to 2000* semi-stacking notes, U-One 5000 store capacity up to 5000* semi-stacking notes.
